I am passionate about recommending strategies which would bring resolution to health challenges.

I owned a wellness spa before. I have worked in this field for about 10 years. I helped countless people improve their health. It is the most exciting thing I have done in my life.

I am presently designing a spa retreat with Juice bar, Restaurant, and Tea shop, with Stress management Amenities to include a Yoga studio with the capacity for Barr exercises.

Exercises to include walking in beautiful artistic gardens to relieve stress, Tai-chi, and Qigong.

Detoxing techniques such as Infra-red saunas, light therapy, vibration plate machines and Mineral wraps

Water therapy to include Outdoor cold splash baths, Mineral baths, Outdoor Rain showers and Jacuzzis.

Massages to include traditional African massages as well as therapeutic massages.

A Spa Shop will make available books written by myself as well as spa items made from products grown locally and made with the help of local talent.

“If there’s a book that you want to Read that hasn’t been written yet, then you must write it.” - Toni Morrison

The Perfume and Fragrance industry industry is worth over 45billion dollars globally.

Bright minds will be encouraged to invent new products. Scholarships will be made available to talented locals to motivate them to continue pursuing excellence.

'I may not be able to change the world but let me help change your world.'
